Company Profile

Protecting your investment
is our business!

Inthar

Safety & Security Systems

Inthar Safety & Security Systems, as one of the UAE's leading fire protection companies, has acquired throughout the years the necessary expertise to implement and maintain complete fire safety systems. Our state-of-the-art technology based and cost-effective solutions include planning, design, installation, management and maintenance.

We have also developed a specific know-how in underground, offshore and off road projects, as well as in coordinating decorative and modification works that are related to fire protection systems.

Our fire alarm and fire fighting products and systems meet the strictest requirements, including for high-risk sectors of activity like utility, manufacturing, fire service, chemical and petro-chemical industries.

We are proud to mention that by applying the best industry standards and practises, we enjoy an exceptional level of customer satisfaction, as testify our accreditation at some important regional Free Zones and the numerous letters of appreciation that we are receiving from our private and official clients.

Our Services

Consultancy & Design of Fire Detection & Fire Fighting Solutions

- Project design
- Material cost saving analysis
- Project drawings
- Tender documentation
- Staff training
- Supervision
- System integration for large-scale projects

Installation & Maintenance of Fire Detection & Fighting Systems

- Project site surveys
- Installation
- Testing and commissioning
- Maintenance

Specialised Services

- Installation of fire water tanks
- Installation of air compressors
- Welding & fabrication for fire, water and fuel pipes
- Ventilation

Supply & Technical Support of fire fighting equipment

Our Products

Fire Detection & Evacuation Systems

- Addressable fire alarm systems
- Conventional fire alarm systems

Fire Suppression Systems

- Automatic water based
 - Automatic sprinklers, deluge systems, pre-action systems
- Manual water based
 - Hose stations systems, dry/wet riser systems, fire hydrant systems
- Clean Agent Low Pressure Systems Like NAFS 125, FM-200 & NOVEC System
- Inert Gas High Pressure Systems like Nitrogen, Inergen & CO2 System
- Aerosol Systems : Fire Pro Extinguishing system

Emergency Light Systems & Central Battery Systems

Fire Extinguishing Systems

- Co2 & ABC Dry Chemical Systems
- AFFF Foam Extinguishers
- Water Stored Pressure Extinguishers

Foam Systems

- Foam low, medium, & high expansion flooding (fuel hangars)

Kitchen Hood Wet Chemical Systems

Fire Pumps

- UL listed / FM approval including associated controls
- Local assembly

Quality Policy

Inthar Safety & Security Systems' Mission Statement is to maintain a leading position in the design, installation, maintenance and supply of fire fighting and fire protection systems and services with consistent quality, meeting the national and international standards, codes and statutory regulations and to meet our customers' expectations.

We are committed to provide quality products and services to our customers by:
